Report on the Financial Statements

We have audited the accompanying financial statements of the Los Gatos–Saratoga Joint Union High School District’s (District), 2014 Measure E Fund (Fund), as of and for the year ended June 30, 2017, and the related notes to the financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of financial statements, whether due to error or fraud. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting principles used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall financial statement presentation.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.
Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Fund as of June 30, 2017, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1, the financial statements present only the financial position of the Fund and are not intended to present fairly the financial position and results of operations of the District in conformity with accounting principles generally accepted in the United States of America.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated November 10, 2017 on our consideration of the Fund’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Fund’s internal control over financial reporting and compliance.

The accompanying notes are an integral part of these financial statements.
NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the 2014 Measure E Fund (Fund) of the Los Gatos–Saratoga Joint Union High School District (District), conform to accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board (GASB).

Financial Reporting Entity

The financial statements include only 2014 Measure E Fund (Fund) used to account for 2014 Measure E projects. This Fund was established to account for the expenditures of general obligation bonds issued under 2014 Measure E Fund. These financial statements are not intended to present fairly the financial position and results of operations of the Los Gatos-Saratoga Joint Union High School District in compliance with accounting principles generally accepted in the United States of America. Measure E authorized the District to issue $99 million of general obligation bonds to provide for repairing, upgrading, acquisition, construction and equipping of District sites and facilities. As of June 30, 2017, the District issued $99 million including the issuance in the fiscal year 2016-2017 in the amount of $54 million.

Fund Accounting

The operations of the Fund are accounted for in a separate set of self-balancing accounts that comprise its assets, liabilities, fund balance, revenues, and expenditures. Resources are allocated to and accounted for in the fund based upon the purpose for which they are to be spent and the means by which spending activities are controlled.

Basis of Accounting

The Fund is accounted for using a flow of current financial resources measurement focus and the modified accrual basis of accounting. Revenues are accrued for, if measurable and available, within 365 days of fiscal year-end. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures, and changes in fund balance reports on the sources (revenues and other financing sources) and uses (expenditures and other financing uses) of current financial resources.

Budgets and Budgetary Accounting

Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America for all governmental funds. The District's governing board adopts an operating budget no later than July 1 in accordance with State law. A public hearing must be conducted to receive comments prior to adoption. The District's governing board satisfied these requirements. The Board revises this budget during the year to give consideration to unanticipated revenue and expenditures primarily resulting from events unknown at the time of budget adoption. The District employs budget control by minor object and by individual appropriation accounts. Expenditures cannot legally exceed appropriations by major object account.

Encumbrances

The District utilizes an encumbrance accounting system under which purchase orders, contracts and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation. Encumbrances are liquidated when the commitments are paid and all outstanding encumbrances lapse at June 30.
Fund Balance

As of June 30, 2017, the fund balance is classified as follows:

Restricted for construction - amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

Spending Order Policy

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the governing board has provided otherwise in its commitment or assignment actions.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2 - INVESTMENTS

Investment in County Treasury

The District is considered to be an involuntary participant in an external investment pool as the District is required to deposit all receipts and collections of monies with their County Treasurer (Education Code Section 41001). The fair value of the District's investment in the pool is reported in the accounting financial statement at amounts based upon the District's pro-rata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis. The District’s investment are not categorized in accordance with the fair value measurement reporting standards because the fund’s investments are deposited with the county pool and deposits and withdrawals are calculated based on $1 cost. Investment as of June 30, 2017, consist of $60,767,497 investment with Santa Clara County Treasury. The fair value of this investment is approximately $60,626,747.

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value is to changes in market interest rates. The District manages its exposure to interest rate risk by investing in the Santa Clara County Investment Pool. The County Pool has an average maturity of 528 days.
Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Investments with the County Treasurer are not rated.

Fair Value Measurements

Generally accepted accounting principles (GAAP) provide guidance on how fair value should be determined when financial statement elements are required to be measured at fair value. Valuation techniques are ranked in three levels depending on the degree of objectivity of the inputs used with each level:

- Level 1 inputs – quoted prices in active markets for identical assets.
- Level 2 inputs – quoted prices in active or inactive for the same or similar assets.
- Level 3 inputs – estimates using the best information available when there is little or no market.

The District categorizes the fair value measurements of its investments based on the hierarchy established by GAAP. Deposits and withdrawals in the county pool are made on the basis of $1.00 and not fair value. Accordingly, the District’s investments in the county pool is an uncategorized input not defined as a level 1, level 2, or level 3 input.
INDEPENDENT AUDITOR’S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Governing Board and
Citizens’ Oversight Committee
Los Gatos–Saratoga Joint Union High School District
Los Gatos, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, the accompanying financial statements of the Los Gatos-Saratoga Joint Union High School District (District) 2014 Measure E Fund (Fund), as of and for the year ended June 30, 2017, and the related notes of the financial statements, and have issued our report thereon dated November 10, 2017.

As discussed in Note 1, the financial statements present only the Fund, and are not intended to present fairly the financial position and results of operations of the District in conformity with accounting principles generally accepted in the United States of America.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Fund's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Fund's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be, significant deficiencies or material weaknesses. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.
Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Fund’s financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Fund’s internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR’S REPORT ON PERFORMANCE

Governing Board and
Citizens’ Oversight Committee
Los Gatos–Saratoga Joint Union High School District
Los Gatos, California

We were engaged to conduct a performance audit of the Los Gatos–Saratoga Joint Union High School District’s (District) 2014 Measure E Fund (Fund) for the year ended June 30, 2017.

We conducted this performance audit in accordance with the standards applicable to performance audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our conclusion6 based on our audit objectives.

Our audit was limited to the objectives listed within the report which includes determining the District's compliance with the performance requirements as referred to in Proposition 39 and outlined in Article XIII A, Section 1(b)(3)(C) of the California Constitution. Management is responsible for the Fund’s compliance with those requirements.

In planning and performing our performance audit, we obtained an understanding of the Fund's internal control in order to determine if the internal controls were adequate to help ensure the Fund's compliance with the requirements of Proposition 39 and outlined in Article XIII A, Section 1(b)(3)(C) of the California Constitution, but not for the purpose of expressing an opinion of the effectiveness of the District’s internal control. Accordingly, we do not express an opinion on the effectiveness of the Fund's internal control.

The results of our tests indicated that, in all significant respects, the District expended the 2014 Measure E funds only for the specific projects approved by the voters, in accordance with Proposition 39 and outlined in Article XIII A, Section 1(b)(3)(C) of the California Constitution.

Palo Alto, California
November 10, 2017
AUTHORITY FOR ISSUANCE

The general obligation bonds associated with 2014 Measure E Fund were authorized pursuant to the Constitution and laws of the State of California (the State), including the provisions of Article 4.5 of Chapter 3 of Part 1 of Division 2 of Title 5 of the State Government Code, commencing with Section 53506 et seq., as amended, Article XIII A of the State Constitution and pursuant to a resolution adopted by the Board.

The District received authorization at an election held on June 3, 2014 by the requisite 55% of the votes cast by eligible voters within the District to issue $99 million aggregate principal amount of general obligation bonds (the “2014 Authorization”). The New Money Bonds represent the first series of bonds issued under the 2014 Authorization. The remaining $54 million of the 2014 Authorization was issued in the fiscal year 2016-2017.

PURPOSE OF ISSUANCE

The general obligation bond funds of the District would be used to finance the repair, upgrading, acquisition, construction and equipping of District sites and facilities.

AUTHORITY FOR THE AUDIT

On November 7, 2000, California voters approved Proposition 39, the Smaller Classes, Safer Schools and Financial Accountability Act. Proposition 39 amended portions of the California Constitution to provide for the issuance of general obligation bonds by school districts, community college districts, or county offices of education, "for the construction, reconstruction, rehabilitation, or replacement of school facilities, including the furnishing and equipping of school facilities, or the acquisition or lease of rental property for school facilities", upon approval by 55 percent of the electorate. In addition to reducing the approval threshold from two-thirds to 55 percent, Proposition 39 and the enacting legislation (AB 1908 and AB 2659) requires the following accountability measures as codified in Education Code Sections 15278-15282:

1. Requires that the proceeds from the sale of the bonds be used only for the purposes specified in Article XIII A, Section 1(b)(3)(C) of the California Constitution, and not for any other purpose, including teacher and administrator salaries and other school operating expenses.

2. The school district must list the specific school facilities projects to be funded in the ballot measure, and must certify that the governing board has evaluated safety, class size reduction and information technology needs in developing the project list.

3. Requires the school district to appoint a citizens’ oversight committee.

4. Requires the school district to conduct an annual independent financial audit and performance audit in accordance with the Government Auditing Standards issued by the Comptroller General of the United States of the bond proceeds until all of the proceeds have been expended.

5. Requires the school district to conduct an annual independent performance audit to ensure that the funds have been expended only on the specific projects listed.
OBJECTIVES OF THE AUDIT

1. Determine whether expenditures charged to the Fund have been made in accordance with the bond project list approved by the voters through the approval of 2014 Measure E.

2. Determine whether salary transactions, charged to the Building Fund were in support of 2014 Measure E and not for District general administration or operations.

SCOPE OF THE AUDIT

The scope of our performance audit covered the period of July 1, 2016 to June 30, 2017. The population of expenditures tested included all object and project codes associated with the Measure. The propriety of expenditures for capital projects and maintenance projects funded through other State or local funding sources, other than proceeds of the bonds, were not included within the scope of the audit. Expenditures incurred subsequent to June 30, 2017, were not reviewed or included within the scope of our audit or in this report.

METHODOLOGY

We obtained the general ledger and the project expenditure reports prepared by the District for the period July 1 2016 through June 30, 2017, for the Fund. Within the fiscal year audited, we obtained the actual invoices and other supporting documentation for a sample of expenditures to ensure compliance with the requirements of Article XIII A, Section 1(b)(3)(C) of the California Constitution and the Measure as to the approved bond projects list. We performed the following procedures:

1. We selected a sample of expenditures for the period starting July 1, 2016 and ending June 30, 2017, and reviewed supporting documentation to ensure that such funds were properly expended on the specific projects listed in the ballot text.

2. Total expenditures sampled for testing amounted to $13,196,830. This represents 63 percent of the total expenditures of $20,861,896.

3. We verified that charges to the Fund were generally expended for the construction, renovation, furnishing and equipping of District facilities constituting authorized bond projects.

CONCLUSION

The results of our tests indicated that, in all significant respects, the District has properly accounted for the expenditures held in the Fund and that such expenditures were made for authorized Measure E projects.
